+ 2 7

Maths - Challenge

Find the missing numbers in the calculations.

9.					10.					11.					12.			
	3	9	4			1	7				2	2	9			2	4	
+		2			+	1		5		+		4			+		8	8
	5	1	6			3	1	8			5	7	2			5	3	1
		1					1					1					1	

Explain the mistake that has been made.

	2	4	7
+	8	1	

Sort the addition calculations into the table.

No Exchange	Exchange Ones	Exchange Tens

$427 + 143$

$356 + 28$

$356 + 82$

$234 + 105$

$782 + 133$

$801 + 147$

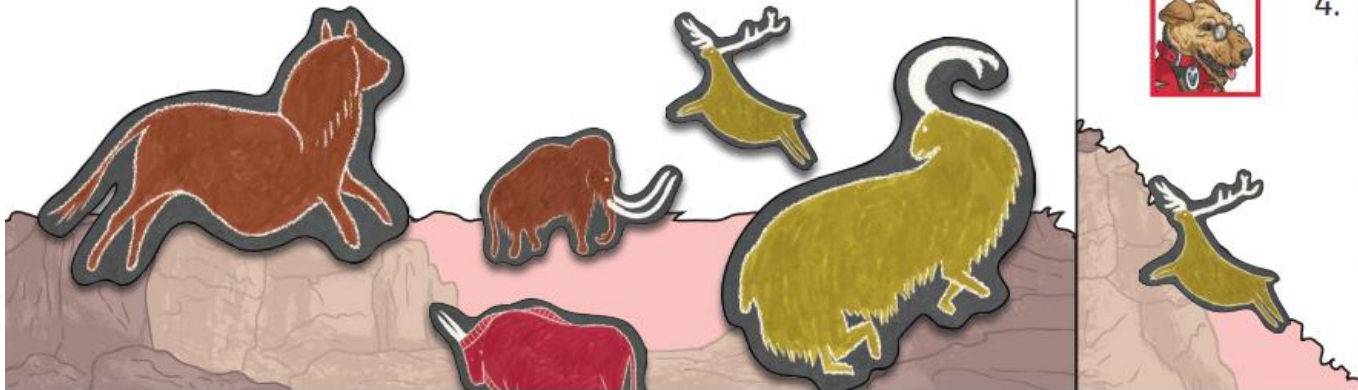

Reading

Cave Paintings

9 Deep within some ancient caves, the ceilings and walls
19 are covered in primitive art, brought to life by flickering
28 firelight. These paintings are thought to have not only
38 been for decoration, as they have been found in caves
43 with no signs of life.

51 The paintings were made by grinding colourful rocks
61 into powder and binding them into a paste using water
69 or animal fat. Early humans drew animals, hunters
80 and handprints in caves around the world as a call for
87 hunting success from their spirit world ancestors.

96 Some famous cave paintings have been dated to around
107 18,000 years old but many are now closed to the public.
118 This is due to the carbon dioxide breathed out by visitors
125 causing irreparable damage to the prehistoric relics.

Questions

1. Find and copy **two** words from the text that mean the same as 'ancient'.

2. Using the text, name one thing that was drawn onto cave walls.

3. Why is it important that the cave paintings are not damaged by the public?

4. **Deep within some ancient caves...**

In this sentence, what does the word 'some' tell the reader?

Writing

Look carefully at the picture:

- What adjectives and noun phrases can you think of to describe what you see and hear?
- How would you feel if you found yourself in the Stone Age?
- Collect these words together in a list to help you write an adventure story tomorrow.

Geography

- Research a famous volcano using the internet and make a fact file with pictures or drawings to show what you have found out.
- Places of famous volcanoes include Pompeii in Italy, Eyjafjallajökull in Iceland and Kilauea in Hawaii.
